

CKE Turbo-Worm Oil

【Performance Features】

- Outstanding high-temperature thermal oxidation stabilities, extra terms of operating;
- Excellent lubricating performance and high loading capacity, to put the optimized driving-efficiency on the machines;
- Outstanding anti-corrosion & anti-rust properties, particularly effective to phosphorus bronze materials;
- Good performance of demulsification, effectively extend the operating life of equipments.
- Quality performances meet the specification requirements of SH/T0094-91 and MIL-L-15109E.

【Product Series】

CKE220, 320, 460 and 680.
